

Content: Health			Grade Level: 7
Standard: HTL-MS.1.04 Identify the anatomical structures of the reproductive system.			
Score 4.0	In addition to Score 3.0, in-depth inferences between all the sections of the triangle and how it applies to human life.		Sample Activities
	3.5	In addition to score 3.0 performance, in-depth inferences and applications with partial success.	
Score 3.0	The student: <ul style="list-style-type: none"> identify and explain the functions of all anatomical structures of the reproductive system. (Penis, vagina, uterus, ovaries, testicles, cervix, epididymis, prostate, seminal vesicle, vas deferens, fallopian tubes, urethra, scrotum, ova, sperm) 		Label and explain function of male and female anatomy
	2.5	No major errors or omissions regarding 2.0 content and partial knowledge of the 3.0 content.	
Score 2.0	There are no major errors or omissions regarding the simpler details and processes as the student: <ul style="list-style-type: none"> recognizes or recalls specific terminology (testosterone, labia, sperm, genitals, pubic hair, puberty, ejaculation, hormones, ovaries, cervix, menstruation, testes, vagina, bladder, uterus, fallopian tubes, nocturnal emission, estrogen, scrotum, ovulation, semen, erection, progesterone, urethra, placenta, foreskin, hymen, prostate, clitoris, seminal vesicles) However, the student exhibits major errors or omissions regarding the more complex ideas and processes.		Matching terms test Function of anatomical structure assessment
	1.5	Partial knowledge of the 2.0 content, but major errors or omissions regarding the 3.0 content.	
Score 1.0	With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.		
	0.5	With help, a partial understanding of the 2.0 content, but not the 3.0 content.
